

Patenter

1. U.S. 5720296 (USA) 1998

- Apparatus and method for analyzing body composition based on bioelectrical impedance analysis.

2. C.N 2225184 (Canada) 2000

- Apparatus and method for analyzing body composition using a new electrode system based on bioelectrical impedance analysis.

3. J.P 3292373 (Japan) 2002

- Apparatus and method for Analyzing Body Composition based on Bioelectrical Impedance Analysis.

4. E.P 0835074 (England, Germany, Italy, France) 2002

- Apparatus and method for analyzing body composition based on bioelectrical impedance analysis.

5. KR 161602 (Korea) 1998

- Analyzing body composition with using clinic electrode impedance, and its method.
